

GFC Construction

Institut de cancérologie
du Gard

Nîmes (30)

NEEDS

- **Size the premises of nuclear medicine departments.**
(operating theatre, medical imaging, radiotherapy, radioactive iodine therapy, waste storage areas).
- **Obtain validation rapidly** to avoid any worksite stoppages.

OUR ANSWER

- **Modelling and calculation** : drawing up of design calculations for the minimum thicknesses of doors, walls, ceilings and floors.
- **Engineering** : participation of engineers in sizing study validation meetings to provide technical support.

CUSTOMER BENEFITS

- **Validation of the sizing study by Nîmes university hospital.**
- **Meeting of construction deadlines.**
- **Budget control by optimum sizing.**
